2023 SA CHINESE LANGUAGE VIDEO COMPETITION

Are you passionate about learning Chinese and creating videos? Then you won't want to miss the opportunity to participate in our 2023 Chinese Language Video Competition for students. This competition provides you with a chance to showcase your Chinese language skills and unleash your creativity by producing a short video in Chinese. Show us your interpretation of Chinese culture, whether through music, dance, food, or other art forms, by creating a short video. The competition is open to all students currently learning Chinese, regardless of your proficiency level.

THEME AND TOPIC

In 2023, we challenge all students to incorporate this year's signature phrase, '未来', into their video to showcase their Chinese language skills and creativity.

The video can explore any topic, and while the signature phrase does not have to be the central theme, it must be featured somewhere in the production. We encourage students to explore any style or theme that interests them, including music videos, comedies, dramas, role-plays, documentaries, animations, and claymation, as long as it includes the use of the Chinese language and the signature phrase. So, let your imagination run wild and create a video that you will be proud to share with others!

CATEGORIES

The competition has three categories, each assessed separately based on the following criteria:

- **Category One: Chinese Second Language Learner**
For non-native learners studying Chinese as a second language, with Chinese language skills but not necessarily the top academic students.
- **Category Two: Background Language Learner**
For students who may speak Mandarin at home or have some background knowledge in the language but are not necessarily native speakers or top academic students.
- **Category Three: First Language Learners of Chinese**
For native Chinese language learners who have had more than one year of schooling in Mandarin in a country or area where Mandarin is spoken, regardless of their academic level.
